BMS Case No. 12PCE0753

CERTIFICATION UNIT DETERMINATION

INTRODUCTION

On February 8, 2012 and February 21, 2012, the State of Minnesota, Bureau of Mediation Services (Bureau), conducted Pre-Hearing Conferences (Conference) pursuant to a petition filed by the Graduate Student Workers United/UAW, Minneapolis, Minnesota (Union). The petition requested certification as exclusive representative for the statutorily established appropriate unit of Graduate Assistants, Unit No. 10, employed by the University of Minnesota, Minneapolis, Minnesota (Employer). (See Minn. Stat. 179A.11, Subd. 1 (10) (2004).

At the Conference held on February 21, 2012 the Employer requested the opportunity to submit a written brief regarding the logistics of an election. The Employer was granted this opportunity with a submission date of February 22, 2012.

AGREEMENTS OF THE PARTIES

At the Conferences the parties agreed upon the following:

1. The description of the bargaining unit.
2. The list of employees falling within the bargaining unit.

3. The election would not be conducted by Mail Ballot.
4. The cut-off date to determine voter eligibility shall be **February 20, 2012.**
5. The following position should be added to the appropriate unit:

9510 Graduate Assistant Coach
6. When requesting an Absentee Ballot, an eligible voter must also supply their Employee Identification Number.
7. The election conducted by the Bureau should not take place during Spring Break which is March 12, 2012 – March 16, 2012.

ISSUES

1. Are the Agreements of the parties appropriate?
2. Has the Union submitted the required showing of interest, through valid authorization cards, to warrant the conduct of an election?
3. If the Union has submitted the required showing of interest, through valid authorization cards, by what method should the Bureau conduct said election?
4. If the Bureau determines that the election should be conducted on-site, what locations will be used as polling locations?

POSITIONS OF THE PARTIES

The Union requested an on-site election be conducted at various locations on the campuses where the affected employees work. The Union further requested that the employees on the St. Paul Campus and the Duluth campus vote simultaneously on one day and that there be four (4) other locations voting on separate days; for a total of five (5) days of on-site balloting. This structure would constitute a “master list” for employees on the Duluth Campus; and a “master list” for the entire Twin Cities campuses.

The Employer took the position that the election should be conducted electronically. The Employer offered documents regarding a specific company that does electronic balloting. The Employer also stated that they believed that electronic balloting would allow for the most efficient mode of conducting an election and offer the best opportunity for voter turnout. The Employer also stated that they believed the Bureau did have the authority to conduct an election electronically. If the Bureau decides to conduct the election on-site, they do not want two locations voting simultaneously. Duluth should be one day; St. Paul should be one day; a location on the South side of Washington Avenue and then two other locations. They argue that this would alleviate multiple "master lists".

DISCUSSION

In making a determination regarding the method of conducting an election, the Bureau must use the standards of Minn. Stat. 179A.12, subd. 7, which states:

Subd. 7. Election order. The commissioner shall issue an order providing for a secret ballot election by the employees in a designated appropriate unit. The election must be held on one or more sites where those voting are employed or by a **mail ballot**, as determined by the commissioner. In making this determination, the commissioner shall strive for an election process that provides for maximum participation by the affected employees. The parties affected by this determination may request reconsideration of it by the commissioner under bureau rules. (Emphasis added)

The Bureau takes the emphasized words "mail ballot" literally to mean by mail, not by email or electronically by any means. The Bureau recognizes that there may be electronic election options in the future, but at the current time on-site or mail ballot are the election options provided in Minn. Stat. 179A.12, subd. 7. The Bureau is interested in researching the electronic method of balloting proposed by the Employer, but believes changes of statute and rule would be needed first.

FINDINGS AND ORDERS

1. The agreements of the parties are appropriate.
2. The bargaining unit agreed to by the parties is identified as follows:

All graduate assistants who are enrolled in the graduate school and who hold the rank of research assistant, teaching associate I and II, project assistant or administrative fellow I or II, who are employed by the University of Minnesota and who are public employees within the meaning of Minn. Stat. 179A.03, subd. 14.

The appropriate unit includes the following job classifications:

9571 Summer Quarter Teaching Assistant
9572 Summer Quarter Research Assistant
9574 Summer Quarter Teaching Assistant w/tuition benefits
9575 Summer Quarter Teaching Assistant w/o tuition benefits

3. The Union has submitted the required showing of interest, through valid authorization cards to warrant the conduct of an election.
4. The Bureau Orders an on-site election be conducted among eligible voters the week of March 19, 2012 – March 23, 2012, in accordance with the attached Election Order.

5. The Employer shall email this Order to each eligible employee at their regular workplace email address and post a paper copy at the work locations of the affected employees.
